ORIGINAL

Dear Chairman Stump:

DOCKETED BY

Owning a small business in Arizona is no easy task—in part because of the over-100° weather that we face every summer. As a business owner, I often wonder how I can most effectively allocate my money to cover all of my necessary costs. I have been finding, unfortunately, that I have less and less funds to keep my business running as much of my income is used in paying off my energy bills. This is a serious problem.

Because of this, I back the Energy Efficiency Standard—which aims to lower energy costs. This is exactly what I need, and I hope you will agree to keep this standard intact.

With Respect,
